I can honestly say that this is a school like no other. Our results in academics, sporting and cultural arenas are second to none in our region, in comparison to either large or small schools. What I am most proud of being Little Buddhain is the communication we build upon daily with teacher to strive together for progress in order to ensure that we become the best citizens, while being happy, positive along the people along the way.

Completion of my professional studies at LBA has been one of the best decisions of my life. I'm what my institution, faculty and friends have made me today. A healthy, once conducive environment to learn, practice and grow cannot be in the best combination as is here.
